“Be the change that you want to see in the world.”

Summary

Graduate in architecture, with solid experience in web application development and expertise in design and architectural design. Passionate about quality, creativity and collaboration, I combine unique technical and artistic skills to enrich each project. Proficiency in software such as AutoCAD, SketchUp, Photoshop, as well as programming technologies such as JavaScript, React.js, Next.js, Node.js, HTML5/CSS3, Sql.. and various frameworks. Adaptable and efficient in dynamic environments, I also excel independently as well as within multidisciplinary teams.
